Tailwind CSS

JavaScript

TypeScript

React JS

Next JS

Redux / Redux Toolkit

REST API

Git/GitHub

Vue JS

Material UI

SQL / Oracle

Language

English - A2

Russian - B2

Armenian - C2

EXPERIENCE

● 2025-present Haysell (React, Next)

Currently working on Unitech eCommerce shop and the main Haysell application, a platform designed to help users manage and control their businesses.

● 2024-present Picsart Academy (React Developer)

Participated in the development of a web platform that helps users discover all businesses and services across Armenia (project duration: ~1 year).

Currently working on two new projects: a web application for the Picsart Academy platform, and a coworking space booking system for Picsart, allowing users to reserve seats and workspaces.

● 2024 Company in Financial Services (React Developer)

I work remotely on a CRM project for a credit company using React, Redux Toolkit, JSS and other technologies. This project gave me valuable experience in frontend development and the ability to quickly solve problems.

● 2024 Rocket Systems (Vue JS developer)

Worked on the frontend development of Godex.io, a project representing a cryptocurrency exchange platform, built with nuxt 2

● 2023 Team Telecom(React Developer)

Worked as a React Developer on the Team Energy CRM system, utilizing React and Material-UI to create a responsive user interface. Additionally, improved my data management skills by studying SQL.

CERTIFICATIONS

● 2022 June-Sep(Certification HTML/CSS JavaScript)
